Participation in the Scheme by residents of Malta should also be considered with other retirement provisions currently in force including mandatory or voluntary occupational schemes that the Government of Malta have or may introduce in the future. Potential Scheme members should seek the appropriate level of financial advice regarding the suitability of the Scheme and any tax implications that may arise.

RECEIVING YOUR PENSION BENEFITS

In accordance with current legislation, retirement benefits may be taken between the ages of 55 and 75. The Momentum Malta Retirement Trust can offer the following options at retirement to Members except those restricted and outlined below:

- A Pension Commencement Lump Sum (PCLS) of up to 30% of the accumulated fund and / or
- The residual fund value can be used to provide the Member with an income under Flexi-Access Drawdown, which means income can be drawn in the form of a regular income and/or lump sum(s) payments to suit your own financial circumstances and / or
- The option to purchase a pension annuity from an insurance provider. In accordance with the MFSA Pension Rules, there is no requirement to purchase an annuity at retirement.

The PCLS can be taken in one lump sum or alternatively in smaller tranches over a 12 month period from the date of first taking the benefit. Thereafter, no further PCLS can be taken.

Retirement options may also be influenced by any regulatory restrictions imposed by the jurisdiction where the pension funds are being transferred from.

RETIREMENT RESTRICTIONS ON TRANSFERS FROM THE EUROPEAN COMMISSION PENSION SCHEME

The Trustee and Administrator confirms that the following conditions will be met to comply with the obligations imposed by the European Commission Pension Scheme as follows:

- A monthly income will be paid from age 60 at the earliest, but no later than age 66.
- There is a requirement to make provision for survivor's benefits.

The Member will not be able to draw a PCLS or take income benefits under Flexi-Access Drawdown (FAD).

The Member's benefits will be in the form of a regular income with the income limits set within defined parameters. Currently the annual maximum income is linked to the UK Government Actuary Department (GAD) tables.

BENEFIT RESTRICTIONS ON UK TRANSFERS

Where the Member is in scope as outlined below, UK legislation places a restriction on benefits taken and during this time, the Members QROPS benefits must align to those benefit payments authorised from a UK Registered Pension Scheme.

This includes limiting the maximum PCLS in respect of a UK transfer fund to 25% of this fund. Benefits paid in excess of this are otherwise subject to a UK Tax Charge payable by the Member.

Transfers of UK tax relieved benefits on or after 6th April 2017

The restriction applies where the Member at the time of the payment:

- i) Draws benefits within 5 years of the date of transfer or
- ii) Is UK tax resident or was a UK tax resident in any of the ten previous consecutive UK tax years at the time of the payment

Transfers of UK tax relieved benefits before the 6th April 2017

The restriction applies where the Member at the time of payment

- i) Is UK tax resident or
- ii) Was a UK tax resident in any of the five previous consecutive UK tax years.

With regards to the remaining funds, the following two options apply:

- The residual fund can be used to provide you with Flexi-Access Drawdown benefits or income under GAD where relevant.
- The option to purchase a pension annuity from an insurance provider.

HOW DO I COMMENCE TAKING BENEFITS?

The Member will need to contact their Financial Adviser, who will discuss their options and provide them with the required Retirement Options Form for completion, which should then be returned to the Scheme Administrators.

INVESTING IN THE PENSION

The Member may choose an appropriate investment strategy in association with their Financial Adviser or Investment Adviser who once authorised will be duly appointed to provide advice on the underlying investments. At the discretion of the Trustee, and on an exceptional basis, a Member may be accepted into the Scheme without an appointed Financial Adviser.

Alternatively, the Member may choose to request the appointment of a duly authorised Investment Manager to manage the investment of the Scheme on a discretionary basis. A current list of authorised Discretionary Fund Managers (DFM) is available on our Website. Please liaise with your Financial Adviser should you require a copy of this list.

The Trustees will consider the Members' investment preferences and ensure that each Member's fund is managed in line with the relevant regulatory requirements of the MFSA or other relevant Authority.

In conjunction with their Financial Adviser, the Members will control their contributions to the Scheme and how the funds should be invested, subject to any investment restrictions imposed on or by the Trustee.

The Trustee will retain ultimate power and discretion with regards to investment decisions.

INVESTMENT POLICY

The Trustee and Administrator need to ensure that the Member's funds are invested in a prudent manner and in the best interests of the beneficiaries. The key principle is to ensure that there is a suitable level of diversification relevant to the investment portfolio.

The Trustee and Administrator will undertake the following:

- Apply the Investment Guidelines to the Scheme's Assets, which may vary from time to time (Current Guidelines are below).
- Seek the Member's confirmation before any investments are made unless an Investment Manager has been authorised on a discretionary basis.

The Administrator receives real time reports from the Life Insurance Companies and Investment Platforms reflecting the underlying valuations of assets under its administration. These valuations undergo an audit examination by Deloitte Audit. The valuations reflect the current open-market valuations of the Assets.

In addition, the Administrator uses a number of techniques in the analysis and monitoring of Scheme assets under its administration including an analysis of Fact Sheets and Investment / Product databases.

Currently, Momentum Pensions Malta Limited has the following Investment Guidelines:

- The portfolio must be in line with the underlying Member's attitude to risk.
- Predominantly invested in regulated markets. Not more than 10% of the Scheme assets can be invested in securities that are not traded in or dealt on a regulated market.

- Esoteric, Non-Standard investments are restricted to no more than 10% of the portfolio's value. Acceptance of these assets is at the discretion of the Trustee.
- Maximum of 40% of the fund in assets with expected liquidity of greater than 3 months but not greater than 6 months.
- Where liquidity is provided by a secondary market, this must be provided by the issuer of the asset and have a maximum pricing period of monthly.
- Where products with underlying Capital guarantees are chosen, i.e. Structured Notes, these will be permitted up to a maximum of 66% of the portfolio's values, with no more than one quarter of the portfolio to be subject to the same issuer default risk.
- Where no such Capital guarantee exists, investment will be permitted up to a maximum of 50% of the portfolio's value.
- Structured Notes will only be accepted at the discretion of the Trustees.
- In addition, further consideration needs to be given to the following factors:
 - Overall size of fund;
 - Credit risk of underlying investment;
 - Liquidity of fund.
- No private funds or private company shares, including shares in a company where the Member, or a related person is a controlling shareholder.
- No immovable property assets. Property funds are acceptable within parameters set out within this guidance.
- No gearing or leverage through the use of derivative products, aside from the use of structured products, which provide some underlying guarantees. If individual investments or equities are considered, then not more than 20% in any singular asset, aside from collective investments.
- Collective investments or funds that provide a sector and geographical spread are acceptable, even if the investments are confined to one fund with a recognized provider.
- In addition to the above, the portfolio must be constructed in such a way as to avoid exposure:
 - To any single sector;
 - To any single region;
 - To any single credit risk.

The Trustees will consider exceptions to this policy from time to time, however any request for variance must be supported by appropriate information and background, with the Trustee retaining ultimate discretion.

The above Guidelines may change from time to time and the updated Investment Guidelines are available on the Momentum Website via the Adviser section. Please liaise with your Financial Adviser to obtain the most recent version.

The Scheme does not generally use its borrowing powers in the management of its portfolio but if necessary, will only engage, directly or indirectly, in borrowing in connection with property purchases, on behalf of any of its Members or connected persons thereto, provided this is done solely on fully commercial terms. The Scheme may borrow up to 50% of the value of the property purchased which must be valued by an Independent Qualified Valuer.

¹ In relation to Immovable Property (land or buildings), means a person who holds a warrant to practise as a building professional (architect) granted under the Periti Act (Cap.390) and, where the qualified valuer is a person whose country of domicile is a country outside Malta, a person who is duly qualified and authorised in the country of his domicile to practise as a building professional (equivalent to an architect) under the laws of the country of his domicile governing architecture and civil engineering professionals acceptable to the MFSA.

MAIN UNDERLYING INVESTMENT

The Trustee will invest the Member's assets, in line with a written instruction from the Member based on advice received from the appointed Financial Adviser. Where an Investment Manager has been authorised, investments may be executed by the duly authorized Investment Manager appointed to manage the investments of the Scheme held on behalf of that Member.

Members and their Financial Adviser should ensure that the selected underlying investments meet the Member's investment requirements and attitude to risk and are within the Investments Guidelines outlined above as varied from time to time.

Investments can be undertaken in the following ways:

- Via a Life Assurance Bond, provided by an Insurance Company with which the Trustee has a suitable agreement. The Life Assurance Bond would in turn hold the underlying Investment portfolio, selected by the Member in conjunction with their Adviser.
- Via an investment company other than a life assurance company, with which the Trustee have a suitable agreement.
- By utilising the services of an authorised Discretionary Fund Manager with whom the Trustee has a suitable written agreement.

BANK ACCOUNT

Any funds received will be held with the Royal Bank of Scotland International and/or Capital Treasury Services Limited on behalf of the Member in the Scheme's client account until such time that the money is invested or paid to the Member in the case of benefits. Officers of the Trustee and Administrator will be the sole signatories.

TAXATION

No Maltese Tax is payable within the fund on income and capital gains (with the exception of 'immovable property' in Malta) and there is no Maltese Income Tax on the provision of a lump sum on commencement of pension benefits or death. Subject to an effective Double Taxation Agreement being in place with the country of Tax Residence of the Member at the time of payment, no Maltese Income Tax will be deducted on the income payments, otherwise Income Tax at Maltese non-resident rates will generally apply.

FEES AND CHARGES

The fees and charges applicable to the Scheme are shown in the Annex I to this document.

At least 14 days written notice will be given to the Member of any changes in the Scheme's Fees. Where VAT is or becomes payable on any of the Services, it will be added at the applicable rate. At present the Scheme carries a VAT exemption.

MEMBER TAX RESIDENCE DISCLOSURE REQUIREMENT

Where a Member requested the transfer of UK benefits to the Scheme after 8th March 2017 and hence were within scope for the OTC, Members must undertake to advise the Administrator immediately and no later than 60 days, of any change in circumstances which affects the country of tax residency during the relevant period. This is a legal requirement in accordance with UK legislation.

ANNUAL REPORTING

In compliance with Maltese regulations, the Trustees will keep, maintain and prepare annual audited accounts for each Scheme Year. In addition, the Trustees will submit an annual report and accounts for the Scheme to the MFSA. The accounting date shall be the 31st December.

The Trustees will complete a Tax return on behalf of its Members to the Maltese Inland Revenue Department.

Scheme Members will receive annual statements showing their fund value.

QROPS REPORTING

In accordance with QROPS regulations, the Scheme Trustee and Administrator will undertake specific reporting requirements to HMRC. The Administrator has an obligation to report to HMRC each time a QROPS makes a payment to a Member.

The Scheme Administrator must report to HMRC where:

- Pension payments to the Member commence;
- A lump sum payment is paid;
- Death benefits are distributed;
- Funds are transferred to another pension scheme.
- Member avails of Flexi-Access retirement benefits

It is the responsibility of the Scheme to follow the HMRC QROPS reporting rules for 10 years from the date of transfer from a UK Registered Scheme.

Where a Member in Flexi-Access Drawdown elects to transfer benefits to another pension scheme, the Administrator has an obligation to inform the receiving pension scheme that the Member has Flexi-Accessed benefits.

Finally, when benefits are transferred to another QROPS, the Administrator is also obligated to report if the transfer is subject to the OTC and the applicable amount, including the reason why no OTC applies, where relevant.

The Trustee cannot be held responsible for any penalties, fees or charges levied by HMRC should the Member elect to take their benefits in a way that is incompatible with the QROPS rules.

EC REPORTING

In respect of a transfer of retirement pension rights acquired with the European Commission Pension Scheme, and in accordance with Article 12(1) (b) of Annex VIII of the Staff Regulations of Officials of the European Union and Conditions of Employment of Other Servants of the European Union, the Scheme Trustee and Administrator has an obligation to report to the European Commission any full or partial transfer to another pension scheme. Such transfers will only be authorised if the conditions laid down by the European Commission are fulfilled.

CONFLICTS OF INTEREST

There may be circumstances where conflicts of interest may arise.

Examples of potential conflicts of interest would be:

1. Where one of the Members could be a Director of Momentum Pensions Malta Limited.
2. Where associated Companies of Momentum Pensions Malta Limited could supply services to Momentum Pensions Malta Limited and to the Momentum Malta Retirement Trust e.g. Custodian Services, Investment Advice.

For the avoidance of any doubt there are no current known conflicts of interests.

WINDING UP AND DISCONTINUANCE OF THE SCHEME

Upon discontinuation of the Scheme and subject to MFSA approval, the Trustee will give notice to wind up the Scheme. Each Member will be notified of their rights and options including the right to transfer the administration and trusteeship to a scheme which is willing to accept the transfer, and which is an Authorised Scheme or such other scheme as may be permitted by the MFSA.

The transfer will include the Net Assets held by the Trustees at the time, in relation to that Member. Notice to the Member will include a request to notify the Trustee within 30 days of receipt of the request, of the new administrator or trustee.

In the event that the Member fails to notify the Trustee of his intentions, the Trustees will transfer the Net Scheme Assets to an Authorised Scheme of the Trustees' choice, with or without the Member's consent.

ANTI-MONEY LAUNDERING PROCEDURES

Malta complies with international standards to prevent money laundering. As part of this, we have a requirement to verify the identity of all of our clients, and each Member of the Scheme will be required to provide the Administrators with proof of identity in a manner as prescribed by Maltese regulations. We will require either sight of original, or verified copies, proof of identity (passport, full driving license, government-issued identity card) and proof of address (recent utility bill or bank statement) less than 3 months old.

COMPENSATION

There is no statutory provision for compensation for Members of the Scheme in the case where the Retirement Scheme is unable to satisfy the liabilities attributable to it; furthermore, the registration of the Scheme is not an endorsement by the MFSA of the financial performance of the Scheme and the MFSA shall not be liable for the performance or default of the Scheme.
